Apr 14, 2006 PhilW believes that SxS COM with manifest is one of those well kept secrets that should be more well known.. My computer keeps crashing and i can t find the reason I ve got win xp sp2 32bit Event Type: Error Event Source.. I looked at the Event Viewer and found a ton of these SideBySide errors, listed as.

As the current maintainer of Windows SxS I just started having trouble today with my computer freezing up.. Resolve Partial Assembly failed for Microsoft VC80 MFCLOC Reference error message: The referenced assembly is not installed on your system.. Event ID: 59. If the error persists, contact your network administrator 2 Comments for event id 59 from source LiveUpdateLearn what other IT pros think about the 59 Error event generated by SideBySide.
