About This Software

You create the videos - The YouTube Center does the rest!

Simplify your Creator everyday life, automate your workflow on YouTube and save your time for the most important thing: your videos. The YouTube Center is probably the most powerful upload software in the world and brings you a lot of useful features and is above all fast and easy to use.

Templates for your projects

Create templates for your different projects and automate the titles of your videos. Use text blocks for your descriptions and tags and reuse frequently used text.

Automate your uploads

The YouTube Center comes with a queue that uploads up to 10 videos at a time and gradually processes all pending uploads. Set the maximum upload speed so you can continue to use your Internet connection wisely. You have the option to have your PC shut down automatically after the upload. If a power saving mode is activated on your PC, you can deactivate it during the upload.

You sort your videos after publishing them on YouTube? Let the YouTube Center do this task by defining "Tasks".

Your videos and playlists fully under control

Edit the metadata of your videos and playlists. Add or remove videos from playlists. Watch your videos and playlists directly in YouTube Center without distorting your video statistics. Of course, in addition to accessing your own, you also have access to all other content on YouTube. Rate videos you like or don't like.

Stay in touch with your viewers

Check your comments and reply to them. Mark dubious comments as spam or delete them.

Benefit from an intuitive and beautiful interface.

nobody plays so there are no servers. This is one of those games where I'm only just starting but I already know I'm gonna hate it.

In a good way :)

Even though I'm still early in the game, it feels really well polished for an indie game and I'm loving it so far. Took me almost 1 hour to finally beat map 2 lol but when I finally did finish I did it in under 2 minutes. Overall loving this game, and can't wait to get all the achievements.

Also +1 because it has trading cards and items!

Overall a solid 8/10 so far, I will update this once I'm farther in the story.. Now add in a flame thrower, skinable animals, proper crafting and you'll have you're self a real far cry bootleg.. Steam overlay does not work for this game, therefore Steam Controller can't be configured for the game.

The in-game controls are impossible to configure.

Game is unplayable.. Personally the best DLC for the Anno series by far

cant connect to any servers. An excellent puzzle game about changing rules to win. Contains over 200 puzzles, some of which are very hard, and some which are deceptively simple.. Short but fun experience. Could be replayed if you really liked this style of gameplay.. Extremely boring concept executed cheaply without a good UI. What bothers me most is that the game is centered around time-managing your needs and income, without even bothering with being realistic about any aspect of it.

Eating a burger e.g. costs almost 70 bucks, takes like 5% of your weeks time and doesn't even fill your hunger bar. Amazeballs retard game which constantly asks you the depressing question of "why are you playing a game about making money, when you could be out there making money with a job that's more interesting and fun than this game?". I'll just say that i didn't enjoy my time playing this game, felt like effort to try and play. Controls are ok, but menus in station are diabolical. Very much a grind. Feels like a game built by someone that once watched someone play a similar game.

. Eyyy I'm walkin here! Luke Sidewalker has you walking across a series of levels in and around NYC, picking up boosts and dodging tourists and obstacles. While the premise is simple, the game is filled with subtle and not-so-subtle NYC references and one-liners that give it a nice charm. Worth a download!
